

# GENESIS

## On Assignment Lab Support's summer internship placement program

### Get Paid - Gain Experience

**You need a job. Companies want experienced people.** Start your experience with On Assignment Lab Support, a recognized leader in the scientific staffing industry! GENESIS paid internships help with your educational expenses, provide a unique opportunity to strengthen your resume and build translatable experiences that speak to future hiring managers inside and outside the company of internship.

### Build Mentorship Relationships

**A GENESIS internship helps you establish relationships with a network of industry professionals.** First, inside the company of placement, you will interact with experts offering professional insight and experience as well as potential contacts and relationships. Second, your On Assignment Lab Support recruiter gets to know you and your needs, connecting you to a wealth of experience. Pioneering the concept of scientists placing scientists, we can help you sculpt out a path to career success and ensure that any internship placement is the best fit for your goals.

Can't get a job without experience?  
Can't get experience without a job?  
**Get a head start with GENESIS!**

## **Open Doors for Future Employment**

**On Assignment Lab Support is here to help you get your foot in the door!** We have many stories where interns were later hired by the same company or learned of other opportunities through their placement.

Also, once we've worked with you, other opportunities from On Assignment Lab Support become available. Remember, we actively place scientists in every discipline and at every stage of their careers; including Chemists, Biologists, Biochemists, Microbiologists, Molecular Biologists, Food Scientists and Lab Assistants. Our twenty-year history and established reputation give you an opening into a wide range of opportunities. Our clients range from Fortune 500 companies to entrepreneurial start-ups and include some of the biggest names in the biotechnology, pharmaceutical, food and beverage, chemical and personal care industries.

## **On Assignment Lab Support does the Legwork for You!**

**On Assignment Lab Support works as your career agent.** We do all the legwork and match you with the perfect internship opportunity based on your skill sets, career interests and compatibility. As a full service scientific staffing firm, we provide you knowledge and resources - partnering with you to put you where you need to grow.

The “genesis” of a skilled employee starts with internship experience. Share your dream of a bright future - **On Assignment Lab Support makes it easy!**
